DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the stentless prosthetic heart valve comprises leaflets that are sewn together with their inner faces engaging each other adjacent the side edges. The limitation of claim 1 of the present application wherein the "width of the in-flow edge of the first leaflet is greater than a width of the out-flow edge of the second leaflet" is a non-obvious narrowing of claim 1 of U.S. Patent No. 6,682,559 and therefore does not constitute double patenting.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
